

CORE | Vision

NEXT LEVEL | EMBEDDED DEVELOPMENT

Core | Vision is your:

- independent design house: we specialize in the development and realization of embedded systems;
- consultant: we deliver flexible consultancy services, ranging from half a day to longer and discontinuous periods;
- partner: intensive cooperation with customers has led to true long term partnerships.

Why Core | Vision?

- We have a sincere passion for the design business.
- We have a problem solving attitude and a creative mind.
- We have a close, flexible team of customer oriented professionals.
- We have a lot of experience in a variety of markets.
- We use the latest and best design tools.

Added Value

As our name suggests, we have a clear vision regarding our core competences. Our highly skilled and experienced engineers will work with your team to bring your vision to reality. We are willing to participate during all stages of the development and realization process. Our goal is to satisfy our customers by improving quality and reducing costs.

Approach

With our broad experience in the design business, we understand how important it is for you to find a reliable, competent, flexible and dedicated partner like Core|Vision. To ensure high quality and good, clear communication, we:

- deliver a detailed and well-founded project plan;
- perform feasibility studies when required;
- design, test and deliver according specification;
- make use of design and peer reviews;
- provide the best technical and commercial solution.

Markets

We operate in many different markets such as defense, transport and traffic, medical, multimedia and industrial. Covering small companies to large cooperations. Please visit our website www.core-vision.nl to see our growing list of customer projects.

Contact

We would like to get to know you better and look forward to the challenge we might find within your business. If you are interested to know more about our products or services, please contact us.
